Information on Practical Classes

- There are *practical pronunciation classes* which complement the theoretical lecture and *must be attended regularly*.

For students in FR 4.3 (Anglistik) they are to be taken *in the semester following the completion of this theoretical course*.

This constraint may not apply to the students of FR 4.6.

PLEASE ENQUIRE IN THE ENGLISH DEPARTMENT OR IN THE DEPT. OF TRANSLATION AND INTERPRETING FOR DETAILS

- The **complete credits** for „English Pronunciation“ are given for **successful completion of both the theoretical and the practical part** (written theoretical exam and practical pronunciation test).
- **Registration** for the practical courses **has to be undertaken in the respective department**.
The registration for the theoretical lecture does NOT book you a place in a practical class.
