| 3 | Geneva    | 1938 |
| 4 | Helsinki  | 1951 |

EDITORIAL NOTE

We hope you will find the Proceedings of the XIII<sup>th</sup> International Congress of Phonetic Sciences interesting. They cover the main areas of phonetic research. The scientific program is presented in the following order: (1) general phonetics, (2) phonetics in language, (3) phonetics in literature, (4) phonetics in education, (5) phonetics in the history of linguistics, (6) phonetics in the history of language, (7) phonetics in the history of thought, (8) phonetics in the history of science, (9) phonetics in the history of art, (10) phonetics in the history of music, (11) phonetics in the history of medicine, (12) phonetics in the history of law, (13) phonetics in the history of religion, (14) phonetics in the history of philosophy, (15) phonetics in the history of psychology, (16) phonetics in the history of sociology, (17) phonetics in the history of anthropology, (18) phonetics in the history of ethnology, (19) phonetics in the history of archaeology, (20) phonetics in the history of paleontology, (21) phonetics in the history of geology, (22) phonetics in the history of biology, (23) phonetics in the history of zoology, (24) phonetics in the history of botany, (25) phonetics in the history of agriculture, (26) phonetics in the history of industry, (27) phonetics in the history of commerce, (28) phonetics in the history of transport, (29) phonetics in the history of communication, (30) phonetics in the history of information, (31) phonetics in the history of computing, (32) phonetics in the history of automation, (33) phonetics in the history of robotics, (34) phonetics in the history of artificial intelligence, (35) phonetics in the history of cognitive science, (36) phonetics in the history of linguistics, (37) phonetics in the history of phonetics, (38) phonetics in the history of phonology, (39) phonetics in the history of phonology, (40) phonetics in the history of phonology.

# Proceedings of The XIII<sup>th</sup> International Congress of Phonetic Sciences

# ICPhS 95

Stockholm, Sweden  
13 - 19 August, 1995

Editors  
Kjell Elenius & Peter Branderud

Volume 1 of 4

The XIII<sup>th</sup> International Congress of Phonetic Sciences (ICPhS 95) has been organised by the Department of Speech Communication and Music Acoustics, KTH (Royal Institute of Technology), and the Department of Linguistics, Stockholm University.

**STATISTICS FOR THE ICPHS 95 PROCEEDINGS**

**Number of sessions and contributions**

| Sessions              | Contributions |
|-----------------------|---------------|
| 3 Plenaries           | 11            |
| 18 Symposia           | 63            |
| 18 Poster Sessions    | 262           |
| 54 Oral Presentations | 262           |
| <b>93 Total</b>       | <b>598</b>    |

**Number of contributions from different countries and author statistics**

We only have the addresses of the contact persons for each paper in our database. The statistics are based on these addresses. This gives us 42 different countries for the 598 papers. Some papers have authors from different countries.

|                             |   |                          |

## 1. Opening session

- |     |   |      |
|-----|---|------|
| 1.1 | <b>Swedish Voices in Music</b>                          | 1:2  |
|     | <i>Johan Sundberg</i>                                   |      |
| 1.2 | <b>Phonetics - A Language Science in its Own Right?</b> | 1:10 |
|     | <i>Klaus Kohler</i>                                     |      |

## 2. Formant transitions

- |     |  |      |
|-----|--|------|
| 2.1 | <b>The Perception of Stop Consonants: Locus Equations and Spectral Integration</b>                     | 1:18 |
|     | <i>Arvo Eek, Einar Meister</i>   |      |
| 2.2 | <b>Acoustic Study of VC Transitions for Hindi Stops</b>  | 1:22 |
|     | <i>Manjari Ohala</i>   |      |
| 2.3 | <b>Effect of Speech Rate and Coarticulation Strategies on the Locus Equation Determination</b>         | 1:26 |
|     | <i>Juraj Bakran, V. Mildner</i>  |      |
| 2.4 | <b>Locus Equations as a Metrics for Place of Articulation in Automatic Speech Recognition</b>          | 1:30 |
|     | <i>Eugenio M. Celdrán, Xavier Villalba</i>   |      |
| 2.5 | <b>Procedural Influences on Three Measures of Articulatory Control</b>                                 | 1:34 |
|     | <i>Ruth A. Huntley, Allen Montgomery, Theresa Herron, Heather Clark, Kathy Kugel, Laura Iden</i>       |      |
| 2.6 | <b>The Amplitudes of the Peaks in the Spectrum as Acoustic Attributes of the Place of Articulation</b> | 1:38 |
|     | <i>Anna Esposito</i>   |      |

## 3. Phonology and phonetics

- |     |   |      |
|-----|---|------|
| 3.1 | <b>On the Phonetic Interpretation of the Yoruba Tonal System</b>                            | 1:42 |
|     | <i>Akin Akinlabi, Mark Liberman</i>   |      |
| 3.2 | <b>A Representational Basis for Modelling English Vowel Duration</b>                        | 1:46 |
|     | <i>G. Nick Clements, Susan R. Hertz, Bertrand Lauret</i>                                    |      |
| 3.3 | <b>The Interrelationship between VOT and Voice Assimilation</b>                             | 1:50 |
|     | <i>Daan Wissing, Justus Roux</i>  |      |
| 3.4 | <b>Palatality as a Prosody in Tundra Nenets</b>   | 1:54 |
|     | <i>Richard Ogden</i>  |      |
| 3.5 | <b>Dynamic Articulatory Phonology and the Supervision of Speech Production</b>              | 1:58 |
|     | <i>Mark Tatham</i>  |      |
| 3.6 | <b>The Phonetics of Reduced Vowels in Chuvash: Implications for the Phonology of Turkic</b> | 1:62 |
|     | <i>Michael Dobrovolsky</i>  |      |

|  |   |       |
|--|---|-------|
| <b>4. Consonant production 1</b>                     |   |       |
| 4.1  | <b>The Effect of Vowel Context on Acoustic Characteristics of [ç, x]</b>                              | 1:66  |
|  | <i>Christine Shadle, Sheila Joan Mair, John N. Carter</i>   |       |
| 4.2  | <b>Inversion of the Voice Source for some Fricatives</b>  | 1:70  |
|  | <i>Christophe Vescovi, Eric Castelli</i>  |       |
| 4.3  | <b>Intrinsic Voice Source Characteristics of Selected Consonants</b>                                  | 1:74  |
|  | <i>Christer Gobl, Ailbhe Ni Chasaide, Peter Monahan</i>   |       |
| 4.4  | <b>Vowel-Vowel Production on a Distinctive Region Model. A New Command Strategy</b>                   | 1:78  |
|  | <i>Samir Chennoukh, René Carré</i>  |       |
| <b>5. Central mechanisms and pathological speech</b> |   |       |
| 5.1  | <b>A Representational Account for Apraxia of Speech</b>   | 1:82  |
|  | <i>Jörg Mayer</i>   |       |
| 5.2  | <b>Phonological Underspecification in Developmental Apraxia of Speech</b>                             | 1:86  |
|  | <i>Inge Boers, Ben Maassen, Geert Thoonen</i>   |       |
| 5.3  | <b>Formant Locus Equations and Coarticulation in Dyspraxic Speech</b>                                 | 1:90  |
|  | <i>Claire Chinnery, G. J. Docherty, D. Walshaw</i>  |       |
| 5.4  | <b>Two Different Systems for Rhythm Processing and their Hierarchical Relation</b>                    | 1:94  |
|  | <i>Morio Kohno</i>  |       |
| 5.5  | <b>The Peculiarities of Lateralization of Syllable Perception in Stuttering and Normal Children</b>   | 1:98  |
|  | <i>E. S. Dmitrieva, K. A. Zaitseva</i>  |       |
| 5.6  | <b>Communicative Suitability of Stuttered Speech</b>  | 1:102 |
|  | <i>Renée van Bezooijen, M. C. Franken</i>   |       |
| <b>6. Perception of tone and stress</b>              |   |       |
| 6.1  | <b>Phonological Similarity Effects in Cantonese Word Recognition</b>                                  | 1:106 |
|  | <i>Anne Cutler, Hsuan-Chih Chen</i>   |       |
| 6.2  | <b>Differential Use of Tonal and Segmental Information in Lexical Decoding Decisions in Cantonese</b> | 1:110 |
|  | <i>Rosemary Varley, Sandra P. Whiteside, Yuet Yee Yim</i>   |       |
| 6.3  | <b>Upward F0 Transition in Falling-Falling Tones and Rising F0 Part in Falling-Convex Tones</b>       | 1:114 |
|  | <i>Maocan Lin</i>   |       |
| 6.4  | <b>Tonal Movements in Thai</b>  | 1:118 |
|  | <i>Appi Tumtavitikul</i>  |       |

|  |  |       |
|--|--|-------|
| 6.5                                    | <b>The Influence of Silence on Perceiving the Preceding Tonal Contour</b>  | 1:122 |
|  | <i>David House</i>   |       |
| 6.6                                    | <b>Two Kinds of Stress Perception</b>  | 1:126 |
|  | <i>Thomas Portele, Barbara Heuft</i>   |       |
| <b>7. Child language development 1</b> |  |       |
| 7.1                                    | <b>What Defines Vowel Identity in Prelingual Infants?</b>  | 1:130 |
|  | <i>Ocke-Schwen Bohn, Linda Polka</i>   |       |
| 7.2                                    | <b>Production-Perception Relationship in the Voicing Contrast for Medial Stops in Children and Adults</b>            | 1:134 |
|  | <i>Cecile T. L. Kuijpers</i>   |       |
| 7.3                                    | <b>The Development of Early Vocalizations of Deaf and Normally Hearing Infants in the First Eight Months of Life</b> | 1:138 |
|  | <i>Chris J. Clement, Els A. den Os, Florien J. Koopmans-van Beinum</i>   |       |
| 7.4                                    | <b>Adult Judgements of Infant Vocalisations</b>  | 1:142 |
|  | <i>Francisco Lacerda, Tamiko Ichijima</i>  |       |
| 7.5                                    | <b>Vocal Learning in Infants: Development of Perceptual-Motor Links for Speech</b>                                   | 1:146 |
|  | <i>Patricia K. Kuhl, Andrew N. Meltzoff</i>  |       |

**9. Speaker characteristics and emotions**

- 9.1 **Pitch Variations and Emotions in Speech** 1:178  
*Sylvie Mozziconacci*
- 9.2 **Objective Voice Parameters to Characterize the Emotional Content in Speech** 1:182  
*Gudrun Klasmeyer, Walter F. Sendlmeier*
- 9.3 **Aural Identification of Unfamiliar Voices by Comparison** 1:186  
*Mauro Falcone, Franco Ferrero, Andrea Paoloni, Piero Cosi*
- 9.4 **On the Identification of Familiar Voices** 1:190  
*Judith Rosenhouse, Yizhar Lavner, Isak Gath*
- 9.5 **Talker- and Task-Specific Perceptual Learning in Speech Perception** 1:194  
*Lynne C. Nygaard, David B. Pisoni*
- 9.6 **Some Sources of Variability in Speech Intelligibility** 1:198  
*Ann R. Bradlow, Gina M. Torretta, David B. Pisoni*

**10. Singing**

- 10.1 **An Investigation of Singer Pitch Deviation as a Function of Pitch and Dynamics** 1:202  
*Perry R. Cook*
- 10.2 **Timing and Accuracy of Fundamental Frequency Changes in Singing** 1:206  
*Guus de Krom, Gerrit Bloothoof*
- 10.3 **An Acoustic Study of French Vowels in Speech and Singing Voice** 1:210  
*Evelyne Florig*
- 10.4 **Vertical and Sagittal Position of Larynx in Singing** 1:214  
*Pertti Hurme, Aatto Sonninen*
- 10.5 **Spectral Measurement of Voice Quality in Opera Singers: the Case of Gruberova** 1:218  
*Tom Johnstone, Klaus Scherer*
- 10.6 **Effect of Vowel Modification on the Phonemic Accuracy of Vowels and Palatalization of Consonants in Russian Vocalized Speech** 1:222  
*Ekaterina Oussilova*
- 10.7 **Facial Expressions in Singing (A Pilot Study)** 1:226  
*Nicole Scotto Di Carlo, Isabelle Guaitella*
- 10.8 **Co-Modulation of F0 and Formant Frequencies in Singing** 1:230  
*Leo-Geert van den Berg, Christel de Bruijn, Gerrit Bloothoof, Guus de Krom*

- 10.9 **The Importance of Disabled Phonation in B. Britten's "Billy Budd"** 1:234  
*Sibylle Vater*
- 10.10 **How does Studying Influence One's Voice Quality?** 1:238  
*Allan Vurma, Tarmo Pajusaar, Einar Meister, Jaan Ross*

**11. Paralinguistic aspects**

- 11.1 **Representation of Prosodic and Emotional Features in a Spoken Language Database** 1:242  
*Peter Greasley, Jane Setter, Mitch Waterman, Carol Sherrard, Peter Roach, Simon Arnfield, David Horton*
- 11.2 **On the Perception of Emotional Content in Speech** 1:246  
*Anne-Maria Laukkanen, Erkki Vilkmán, Paavo Alku, Hanna Oksanen*
- 11.3 **Prosodic Signs of Emotion in Speech: Preliminary Results from a New Technique for Automatic Statistical Analysis** 1:250  
*Sinead McGilloway, Roddy Cowie, Ellen Douglas-Cowie*
- 11.4 **Pragmatic Phonetics: Acoustic Correlates** 1:254  
*Katherine Morton*
- 11.5 **Intonational Universals in Textual Context** 1:258  
*Emma Nushikyan*
- 11.6 **Production and Perception of the Singing Formant** 1:262  
*Claire Pillot*
- 11.7 **An Acoustic and Perceptual Study on the Emotive Speech in Korean and French** 1:266  
*Soo-Jin Chung*

**12. Second language phonetics and phonology**

- 12.1 **Delay in Oral Production and Pronunciation Achievement in a Foreign Language** 1:270  
*Dario Barrera Pardo*
- 12.2 **Do L1 Traces Help Listeners in L2?** 1:274  
*Z. S. Bond, Thomas J. Moore*
- 12.3 **Native and Non-Native Perception of Dialectal Variation in Swedish** 1:278  
*Una Cunningham-Andersson*
- 12.4 **Applying Phonetics to the Teaching of English** 1:282  
*Rebecca M. Dauer*
- 12.5 **The Acquisition of Multilingual Phonology** 1:286  
*Eduardo D. Faingold*
- 12.6 **Naturalistic Elicitation of Acoustical Parameter Shift of /r/ and /l/ in the Speech of Japanese ESL Students** 1:290  
*Shaw N. Gynan, Rudolf Weiss*

*Linda Polka*

# Proceedings ICPHS 95 Stockholm

Vol 2 Tuesday 15 Aug

**Proceedings of  
The XIII<sup>th</sup> International Congress  
of Phonetic Sciences**

**ICPhS 95**

**Stockholm, Sweden  
13 - 19 August, 1995**

**Editors  
Kjell Elenius & Peter Branderud**

**Volume 2 of 4**

The XIII<sup>th</sup> International Congress of Phonetic Sciences (ICPhS 95) has been organised by the Department of Speech Communication and Music Acoustics, KTH (Royal Institute of Technology), and the Department of Linguistics, Stockholm University.

Printed by Arne Sjöström's Grafiska  
Stockholm 1995

## STATISTICS FOR THE ICPHs 95 PROCEEDINGS

### Number of sessions and contributions

| Sessions              | Contributions |
|-----------------------|---------------|
| 3 Plenaries           | 11            |
| 18 Symposia           | 63            |
| 18 Poster Sessions    | 262           |
| 54 Oral Presentations | 262           |
| <b>93 Total</b>       | <b>598</b>    |

### Number of contributions from different countries and author statistics

We only have the addresses of the contact persons for each paper in our database. The statistics are based on these addresses. This gives us 42 different countries for the 598 papers. Some papers have authors from different countries.

## MEMBERS OF THE PERMANENT COUNCIL

**President** Björn Lindblom, Sweden

**Secretary General** Klaus Kohler, Germany

Antonina Antipova, Russia

Gunnar Fant, Sweden

Adrian Fourcin, UK

Hiroya Fujisaki, Japan

Tamaz Gamkrelidze, Georgia

Björn Granström, Sweden

Hajime Hirose, Japan

Premysl Janota, Czech Republic

Peter Ladefoged, USA

John Laver, UK

Ilse Lehiste, USA

Pierre Léon, Canada

Tatyana Nikolayeva, Russia

Louis Pols, The Netherlands

Mart Rimmel, Estonia

Jørgen Rischel, Denmark

Mario Rossi, France

Masayuki Sawashima, Japan

Kenneth Stevens, USA

Kalevi Wiik, Finland

Zong Ji Wu, P.R. China

## LOCAL COORDINATORS

# Proceedings ICPHS 95 Stockholm

Vol 3 Thursday 17 Aug

PRECEDING CONGRESSES

|   |           |      |
|---|-----------|------|
| 1 | Amsterdam | 1952 |
| 2 | London    | 1957 |
| 3 | Oslo      | 1958 |
| 4 | Helsinki  | 1961 |

EDITOR'S NOTE

We hope you will find this volume of the proceedings of the XIII<sup>th</sup> International Congress of Phonetic Sciences of interest.

# Proceedings of The XIII<sup>th</sup> International Congress of Phonetic Sciences

ACKNOWLEDGEMENTS

The symposium was organized by the Department of Speech Communication and Music Acoustics, KTH (Royal Institute of Technology), and the Department of Linguistics, Stockholm University.

## ICPhS 95

Stockholm, Sweden  
13 - 19 August, 1995

Editors  
Kjell Elenius & Peter Branderud

Volume 3 of 4

The XIII<sup>th</sup> International Congress of Phonetic Sciences (ICPhS 95) has been organised by the Department of Speech Communication and Music Acoustics, KTH (Royal Institute of Technology), and the Department of Linguistics, Stockholm University.

## STATISTICS FOR THE ICPHs 95 PROCEEDINGS

### Number of sessions and contributions

| Sessions              | Contributions |
|-----------------------|---------------|
| 3 Plenaries           | 11            |
| 18 Symposia           | 63            |
| 18 Poster Sessions    | 262           |
| 54 Oral Presentations | 262           |
| <b>93 Total</b>       | <b>598</b>    |

### Number of contributions from different countries and author statistics

We only have the addresses of the contact persons for each paper in our database. The statistics are based on these addresses. This gives us 42 different countries for the 598 papers. Some papers have authors from different countries.

## MEMBERS OF THE PERMANENT COUNCIL

**President** Björn Lindblom, Sweden  
**Secretary General** Klaus Kohler, Germany

|                                |                             |
|--------------------------------|-----------------------------|
| Antonina Antipova, Russia      | Pierre Léon, Canada         |
| Gunnar Fant, Sweden            | Tatyana Nikolayeva, Russia  |
| Adrian Fourcin, UK             | Louis Pols, The Netherlands |
| Hiroya Fujisaki, Japan         | Mart Rimmel, Estonia        |
| Tamaz Gamkrelidze, Georgia     | Jørgen Rischel, Denmark     |
| Björn Granström, Sweden        | Mario Rossi, France         |
| Hajime Hirose, Japan           | Masayuki Sawashima, Japan   |
| Premysl Janota, Czech Republic | Kenneth Stevens, USA        |
| Peter Ladefoged, USA           | Kalevi Wiik, Finland        |
| John Laver, UK                 | Zong Ji Wu, P.R. China      |
| Ilse Lehiste, USA              |                             |

## LOCAL COORDINATORS

|                                     |  |
|-------------------------------------|--|
| <b>President</b>                    | Björn Granström, KTH                                 |
| <b>Secretary general</b>            | Olle Engstrand, SU (Stockholm University)            |
| <b>Scientific programme</b>         | Rolf Carlson, KTH & Diana Krull, SU                  |
| <b>Symposia</b>                     | Jan Gauffin, KTH & Lennart Nord, KTH                 |
| <b>Oral sessions</b>                | Inger Karlsson, KTH & Francisco Lacerda, SU          |
| <b>Poster sessions</b>              | Sheri Hunnicutt, KTH & Hartmut Traunmüller, SU       |
| <b>Publications</b>                 | Kjell Elenius, KTH & Peter Branderud, SU             |
| <b>Media contacts</b>               | Björn Lindblom, SU                                   |
| <b>Equipment</b>                    | Svante Granqvist, KTH & Johan Stark, SU              |
| <b>Exhibition</b>                   | Johan Liljencrants, KTH & Rolf Lindgren, SU          |
| <b>Sponsors</b>                     | Lennart Neovius, KTH & Bertil Lyberg, Telia Research |
| <b>Economy</b>                      | Viktoria Goldstein, KTH & Liisa Karhapää, SU         |
| <b>Local arrangements</b>           | Cathrin Dunger, KTH & Peter af Trampe, SU            |
| <b>Social programme</b>             | Sten Ternström, KTH & Robert McAllister, SU          |
| <b>Registration and information</b> | Bibba Ejeklint, Congrex & Ulla Sundberg, SU          |

- 54.4 **Another Marginal Phoneme in English** 3:354  
*Laurie Bauer*
- 54.5 **Feature Geometry and Brazilian Indigenous Languages (Macro-Je)** 3:358  
*Wilmar da Rocha D'Angelis*
- 54.6 **Concept Formation as a Tool for the Investigation of Phonological Units in Taiwanese** 3:362  
*Bruce L. Derwing, H. Samuel Wang*
- 54.7 **The Phonetic Fate of Foreign Words** 3:366  
*P. Durand*
- 54.8 **Lexical Stress in German Monomorphemes** 3:370  
*Caroline Féry*
- 54.9 **Some Implications for Gestural Underspecification as a Result of the Analysis of German /t/ Assimilation** 3:374  
*Anja Geumann, Bernd Kröger*
- 54.10 **Coda Condition in Italian and Underspecification Theory** 3:378  
*Giovanna Marotta*
- 54.11 **A Prosodic Account of English Vowel Lengthening** 3:382  
*Geoffrey S. Nathan*
- 54.12 **The Balkan Sprachbund in the Light of Phonetic Features** 3:386  
*Irena Sawicka*
- 54.13 **Acoustic Correlates of Vowel Quantity Contrasts in an Italian Dialect** 3:390  
*Arianna Uguzzoni, M. Grazia Busà*
- 54.14 **An Experimental Study on the Segmentation of Taiwanese Syllables** 3:394  
*H. Samuel Wang*

**55. Child language development**

- 55.1 **Prosodic Variation in Parental Speech in Swedish** 3:398  
*Anne-Christine Bredvad-Jensen*

- 55.2 **Characterizing the Adult Target: Acoustic Studies of Swedish and American English /t/ and /p/** 3:400  
*Eugene H. Buder, Karen Williams, Carol Stoel-Gammon*
  - 55.3 **Assimilation of Voice in Speech Development** 3:404  
*Cecile T. L. Kuijpers*
  - 55.4 **Young Infants' Perception of Segmental and Suprasegmental Information: Preliminary Results** 3:408  
*Francisco Lacerda, Ulla Sundberg, Christin Andersson, Åsa Rex*
  - 55.5 **Emotional Information in Young Infants' Vocalizations** 3:412  
*Yoko Shimura, Satoshi Imaizumi*
  - 55.6 **Voice Onset Time in Speech Directed to Infants and Adults** 3:416  
*Ulla Sundberg*
  - 55.7 **Intrinsic F0 in the Babbling of Mandarin-Learning Infants** 3:420  
*Doug Whalen, Andrea G. Levitt, Pai-Ling Hsiao, Julia Irwin, Winifred McGowan*
- 56. Consonant production 2**
- 56.1 **Palatometric Specification of Hindi /s/ and /S/\*** 3:424  
*R. Prakash Dixit*
  - 56.2 **Glottal Opening in German Obstruents** 3:428  
*Michael Jessen*
  - 56.3 **Effects of Prosodic Position on /t, d/ Tongue/Palate Contact** 3:432  
*Patricia A. Keating*
  - 56.4 **Cross-Linguistic Aspects of Coarticulation: an Acoustic and Electropalatographic Study of Dental and Retroflex Consonants** 3:436  
*Diana Krull, Björn Lindblom, B.-E. Shia, D. Fruchter*
  - 56.5 **A Crosslinguistic VOT Analysis of Early Stop Production: the Development of the Feature "Voicing"** 3:440  
*P. Larrañaga, Conxita Lleó, Michael Prinz*
  - 56.6 **Stop Consonant Production: an Articulation and Acoustic Study** 3:444  
*Kelly L. Poort*
  - 56.7 **Aspirated Stops in Scots Gaelic** 3:448  
*Henry Rogers*
  - 56.8 **The Character of /r/-Sounds: Articulatory Evidence for Different Reduction Processes with Special Reference to German** 3:452  
*Niels Schiller, Christine Mooshammer*
  - 56.9 **Variability of Lingual Stops in English: an Electropalatographic Study** 3:456  
*Daphne Waters, K. Nicolaidis, William J. Hardcastle, Fiona Gibbon*

- 60.5 **Quantity Contrast in Swedish: Kinematic and Acoustic Patterns** 3:580  
*Rudolph Sock, Anders Löfqvist*
- 60.6 **Perceptual Analysis of Compensatory Strategies in the Production of the French Rounded [u] Perturbed by a Lip-Tube** 3:584  
*Christophe Savariaux, Pascal Perrier, Jean-Luc Schwartz*

**61. Lexical access**

- 61.1 **Reconstruction of Base Forms in Perception of Casual Speech** 3:588  
*Linda Shockey, Anthony Watkins*
- 61.2 **Evidence for Direct Lexical Access from Response Time Experiments** 3:592  
*Kari Suomi*
- 61.3 **Role of the Grammatical Gender in Mental Lexicon Access** 3:596  
*Sophie Monpiou, Marie-Noelle Metz-Lutz, François Wioland, Gilbert Brock*
- 61.4 **Mental Lexicon Access: Initial Phonological & Morphemic Syllable in Auditory Recognition** 3:600  
*Pierre-Yves Connan, Marie-Noelle Metz-Lutz, François Wioland, Gilbert Brock*
- 61.5 **Phonological Priming Effects in Lexical Competition** 3:604  
*Nicole Bacri, Frederic Isel*
- 61.6 **Do Metrical and Phonotactic Segmentation Cues Cooperate in Spoken Word Recognition?** 3:608  
*Nicole Bacri, Marie-Hélène Banel*

**62. Cross-linguistic aspects of perception**

- 62.1 **Spoken Word Segmentation in Arabic Literate and Illiterate Subjects: a Psycholinguistic Approach** 3:612  
*Mohamed Farid*
- 62.2 **The Perception of the Single-Geminate Consonant Contrast by Native Speakers of Italian and Anglophones** 3:616  
*Bernard L. Rochet, Anne P. Rochet*
- 62.3 **Perceptual Confusion between South African and British English Vowels** 3:620  
*Anthony Traill, Martin J. Ball, Nicole Müller*
- 62.4 **Perception of Vowel Quality by German-English Bilinguals** 3:624  
*Frederika Holmes*

- 62.5 **Perception of Synthetic Vowel Stimuli with Changing Onset F2-Transition by Russian and Finnish Subjects** 3:628  
*Vladimir Kouznetsov, Antti Iivonen*

**63. Cross-linguistic aspects of prosody**

- 63.1 **Cross-Linguistic Comparison of Durational Patterns in Finnish and Finland-Swedish** 3:632  
*Ilse Lehiste*
- 63.2 **Prosodic Patterns in Singapore English** 3:636  
*Ee Ling Low, Esther Grabe*
- 63.3 **Perception of Focus in Stress Accent Language (German) and Non-Stress Accent Language (Japanese)** 3:640  
*Ryoko Hayashi, Shigeru Kiritani*
- 63.4 **The Prosody of Mauritian Creole: Some Experimental Aspects** 3:644  
*Philippe Martin*
- 63.5 **The Intonation of Queries and Checks Across Languages: Data from Map Task Dialogues** 3:648  
*Martine Grice, Ralf Benzmüller, Michelina Savino, Bistra Andreeva*
- 63.6 **Comparing F0 Reset in Two Prosodically Diverse Languages - Data from Eskimo and Yoruba** 3:652  
*Yasuko Nagano-Madsen, Anne-Christine Bredvad-Jensen*

**64. Prosodic prominence**

- 64.1 **Pitch Accent Patterns in Adjacent-Stress vs. Alternating-Stress Words in American English** 3:656  
*Stefanie Shattuck-Hufnagel*
- 64.2 **Nuclear Accent Types and Prominence: Some Psycholinguistic Experiments** 3:660  
*Gayle M. Ayers*
- 64.3 **Influence of Focus Structures on Tonal Targets of Pitch Peaks** 3:664  
*H. H. Rump*
- 64.4 **The Effect of Emphatic Accent on Contextual Tonal Variation** 3:668  
*Yi Xu*
- 64.5 **Strategies for Focal Accent Detection in Spontaneous Speech** 3:672  
*Anja Petzold*
- 64.6 **Loudness, Spectral Tilt, and Perceived Prominence in Dialogues** 3:676  
*W. Nick Campbell*

**65. Sociophonetics**

- 65.1 **Pitch Stereotypes in the Netherlands and Japan** 3:680  
*Renée van Bezooijen, Tjeerd de Graaf, Takashi Otake*

- 65.2 **The Use of a Category-Perception Test in the Study of Ongoing Sound Change** 3:684  
*Isabelle Malderez*
- 65.3 **Back-Channel Signals in Quebec French: Phonetic Description and Frequency of Use** 3:688  
*Marty Laforest, Julie Nicole, Claude Paradis*
- 65.4 **Conversational and Phonological Factors Governing the 'Final Release Rule' in Tyneside English** 3:692  
*G. J. Docherty, Paul Foulkes, Jim Milroy, Lesley Milroy, Penny Oxley*
- 65.5 **Age Grading in English Pronunciation Preferences** 3:696  
*John Wells*
- 65.6 **Open Vowel Backing in Canadian English** 3:700  
*John H. Esling, Henry J. Warkentyne*

### 66. Paralinguistic phonetics and speaker characteristics

- 66.1 **The Phonetic Description of Paralinguistic Phenomena** \*  
*John Laver*
- 66.2 **Acoustic Profiles from Prototypical Vocal Expressions of Emotion** 4:2  
*Tom Johnstone, Rainer Banse, Klaus Scherer*
- 66.3 **Towards Acoustic Profiles of Phonatory Qualities** 4:6  
*Ailbhe Ní Chasaide, Christer Gobl*

### 67. Acquisition of phonetics and phonology

- 67.1 **Prosodic Analysis of Babbling and First Words: A Comparison of English and French** 4:14  
*Marilyn M. Vihman, Barbara L. Davis, Rory DePaolis*
- 67.2 **A Developmental Model of Acquisition of Rhythmic Patterns: Results from a Cross-Linguistic Study** 4:22  
*Gabrielle Konopczynski*
- 67.3 **Acquisition of Vowel Duration: A Comparison of Swedish and English** 4:30  
*Carol Stoel-Gammon, Eugene H. Buder, Margaret M. Kehoe*
- 67.4 **Particles and Prepositions in Scandinavian Child Language Development: Effects of Prosodic Spotlight?** 4:38  
*Sven Strömquist, Ann Peters, Hrafnhildur Ragnarsdóttir*

### 68. New methods for articulatory data acquisition

- 68.1 **New Methods for Articulatory Data Acquisition** \*  
*Hajime Hirose*

\* no written paper

- 68.2 **Three-Dimensional Ultrasound and Magnetic Resonance Imaging: A New Dimension in Phonetic Research** 4:46  
*Arne Kjell Foldvik, U. Kristiansson, J. Kvaerness, A. Torp, H. Torp*
- 68.3 **Differences Among Speakers in Articulation of American English /r/: An X-Ray Microbeam Study** 4:50  
*J. R. Westbury, M. Hashi, Mary J. Lindstrom*
- 68.4 **Electromagnetic Articulography: A Brief Overview** 4:58  
*Vincent L. Gracco*
- 68.5 **Recent Advances in High-Speed Digital Image Recording of Vocal Cord Vibration** 4:62  
*Shigeru Kiritani*
- 69. Computational Phonetics**
- 69.1 **Computational Phonetics** 4:68  
*Roger Moore*
- 69.2 **Temporal Interpretation of Non-Segmental Phonological Structures** \*  
*John Local*
- 69.3 **Three Areas of Computational Phonetics** 4:72  
*Hans G. Tillmann*
- 69.4 **Dynamic Articulatory Phonology and the Supervision of Speech Production** \*  
*Mark Tatham*
- 69.5 **A Three-Stage Algorithm for Identification of Acoustics in Stop-Vowel-Stop Syllables** \*  
*Terrance M. Nearey*
- 70. Phonetics of second language learning**
- 70.1 **Introduction** \*  
*Valerie Hazan*
- 70.2 **Phonetics of Second-Language Acquisition: Past, Present, Future** 4:76  
*Winifred Strange*
- 70.3 **What Determines the Perceptual Difficulty Encountered in the Acquisition of Nonnative Contrasts?** 4:84  
*Ocke-Schwen Bohn*
- 70.4 **Relationships between Speech Production and Speech Perception in a Second Language** 4:92  
*Joaquim Llisteri*
- 70.5 **Techniques for Training Difficult Non-Native Speech Contrasts** 4:100  
*D. G. Jamieson*

\* no written paper

# Proceedings ICPHS 95 Stockholm

Vol 4 Friday 18 Aug

PRECEDING CONGRESSES

|      |           |   |
|------|-----------|---|
| 1972 | Amsterdam | 1 |
| 1977 | London    | 2 |
| 1982 | Oslo      | 3 |
| 1987 | Ljubljana | 4 |

Dear colleagues,

We hope you will find these proceedings useful and interesting. They cover the main topics of the congress.

# Proceedings of The XIII<sup>th</sup> International Congress of Phonetic Sciences

ACKNOWLEDGEMENTS

The organizing committee is grateful to the following institutions for their generous support of the congress:

# ICPhS 95

Stockholm, Sweden  
13 - 19 August, 1995

Editors  
Kjell Elenius & Peter Branderud

Volume 4 of 4

The XIII<sup>th</sup> International Congress of Phonetic Sciences (ICPhS 95) has been organised by the Department of Speech Communication and Music Acoustics, KTH (Royal Institute of Technology), and the Department of Linguistics, Stockholm University.

Stockholm 1995

**STATISTICS FOR THE ICPHs 95 PROCEEDINGS**

**Number of sessions and contributions**

| Sessions              | Contributions |
|-----------------------|---------------|
| 3 Plenaries           | 11            |
| 18 Symposia           | 63            |
| 18 Poster Sessions    | 262           |
| 54 Oral Presentations | 262           |
| <b>93 Total</b>       | <b>598</b>    |

**Number of contributions from different countries and author statistics**

We only have the addresses of the contact persons for each paper in our database. The statistics are based on these addresses. This gives us 42 different countries for the 598 papers. Some papers have authors from different countries.

|                             |   |                          |

**MEMBERS OF THE PERMANENT COUNCIL**

**President** Björn Lindblom, Sweden

**Secretary General** Klaus Kohler, Germany

Antonina Antipova, Russia

Gunnar Fant, Sweden

Adrian Fourcin, UK

Hiroya Fujisaki, Japan

Tamaz Gamkrelidze, Georgia

Björn Granström, Sweden

Hajime Hirose, Japan

Premysl Janota, Czech Republic

Peter Ladefoged, USA

John Laver, UK

Ilse Lehiste, USA

Pierre Léon, Canada

Tatyana Nikolayeva, Russia

Louis Pols, The Netherlands

Mart Rimmel, Estonia

Jørgen Rischel, Denmark

Mario Rossi, France

Masayuki Sawashima, Japan

Kenneth Stevens, USA

Kalevi Wiik, Finland

Zong Ji Wu, P.R. China

**LOCAL COORDINATORS**

**President** Björn Granström, KTH

**Secretary general** Olle Engstrand, SU (Stockholm University)

**Scientific programme** Rolf Carlson, KTH & Diana Krull, SU

**Symposia** Jan Gauffin, KTH & Lennart Nord, KTH

**Oral sessions** Inger Karlsson, KTH & Francisco Lacerda, SU

**Poster sessions** Sheri Hunnicutt, KTH & Hartmut Traummüller, SU

**Publications** Kjell Elenius, KTH & Peter Branderud, SU

**Media contacts** Björn Lindblom, SU

**Equipment** Svante Granqvist, KTH & Johan Stark, SU

**Exhibition** Johan Liljencrants, KTH & Rolf Lindgren, SU

**Sponsors** Lennart Neovius, KTH & Bertil Lyberg, Telia Research

**Economy** Viktoria Goldstein, KTH & Liisa Karhapää, SU

**Local arrangements** Cathrin Dunger, KTH & Peter af Trampe, SU

**Social programme** Sten Ternström, KTH & Robert McAllister, SU

**Registration and information** Bibba Ejeklint, Congrex & Ulla Sundberg, SU

**84. Phonetics and the lexicon**

- 84.1 **The Concepts of Pronunciation and Spelling and their Connexion with Natural Speech** 4:544  
*Sven Öhman*
- 84.2 **Morpho-Phonetic Relationships and Elaboration of "De À à Zut" a Lexicon of Spoken French** 4:546  
*Daniele Dujardin, Rabia Belrhali, Louis-Jean Boë, J. Courtin*
- 84.3 **The Phonetic Goals of the New Bavarian Archive for Speech Signals** 4:550  
*Hans G. Tillmann, Christoph Draxler, Kurt Kotten, Florian Schiel*
- 84.4 **A Comparison of German Names and German Words** 4:554  
*Andreas Mengel*

**85. Foreign language learning**

- 85.1 **The Development of Phonological Bias: Perception and Production of Swedish Vowels and Tones by English Speakers** 4:558  
*Denis Burnham, Camilla Torstensson*
- 85.2 **Acquisition of the English /r/-/l/ Contrast by Japanese Speakers: Effects of Training in Perception on Production** 4:562  
*Ann R. Bradlow, David B. Pisoni, Reiko A. Yamada, Yoh'ichi Tokhura*
- 85.3 **Perception of Tense-Lax Vowels and Fortis-Lenis Consonants by Russian Learners of English** 4:566  
*Alexander Yu Panasyuk, I.V. Panasyuk, A. L. Gorlovsky, O. V. Anfimova*
- 85.4 **Perceptual Foreign Accent and L2 Production** 4:570  
*Robert McAllister*

**86. Articulatory coordination**

- 86.1 **Gestural Economy** 4:574  
*Ian Maddieson*
- 86.2 **How Far Do We Look Ahead While Speaking?** 4:578  
*Sieb G. Nootboom*
- 86.3 **Towards the Unification of Vowel Spaces** 4:582  
*Louis-Jean Boë, Bernard Gabioud, Pascal Perrier, Jean-Luc Schwartz, Nathalie Vallée*
- 86.4 **Variability in Glottalization of Word Onset Vowels in American English** 4:586  
*Laura C. Dilley, Stefanie Shattuck-Hufnagel*

**87. Voice analysis and effect of training**

- 87.1 **The Alaryngeal Voice Source as Analysed by Videofluoroscopy, Fiberendoscopy, and Perceptual-Acoustic Assessment** 4:590  
*Britta Hammarberg, Lennart Nord*
- 87.2 **Therapeutic Training of an RHD Patient with Prosodic Disturbances of a Linguistic and Affective Nature** 4:594  
*Deborah Günzburger*
- 87.3 **A Method for the Field Examination and Follow-Up of Voice Therapy in Professional Voice Users with Vocal Fatigue** 4:598  
*Leena Rantala, Kari Haataja, Erkki Vilkmán*
- 87.4 **Treating Children with Persistent Articulatory Problems Using Individually Designed Palatal Plates Ad Modum Castillo-Morales** 4:602  
*Anita McAllister, Martha Björnström*
- 87.5 **Jitter and Shimmer in Vocal Fold Nodules, Polyps and Edemas Before and after Phonosurgery** 4:606  
*Alberto Nieto, Alberto Vegas, F. Gamboa, José Montojo, Ignacio Cobeta, Peter Kitzing*
- 87.6 **The Effect of Radiotherapy on Various Acoustical, Clinical and Perceptual Pitch Measures** 4:610  
*Irma M. Verdonck-de Leeuw, Florian J. Koopmans-van Beinum*

**88. Perceptual processing and evaluation**

- 88.1 **Perceiving and Processing Speechlike Sounds** 4:614  
*Astrid van Wieringen, Louis C. W. Pols*
- 88.2 **Selective Weighting of Acoustic Information in Discrimination of Speech and Non-Speech Sounds** 4:618  
*Peter J. Bailey, Nicholas I. Hill, Philip Hodgson*
- 88.3 **A Comparison of Anchored and Unanchored Rating Protocols** 4:622  
*Christine Steutel, Guus de Krom*
- 88.4 **Acoustic Segmentation Using Various Neural Adaptation Models** 4:626  
*Edward Jones, Eliathamby Ambikairajah*

**89. Aspects of stress**

- 89.1 **Discourse-Based Empirical Evidence for a Multi-Class Accent System in French** 4:630  
*Corine Astesano, Albert Di Cristo, Daniel Hirst*
- 89.2 **Articulatory Correlates of Secondary Stress in Polish and Spanish** 4:634  
*Gabriele Scharf, Ingo Hertrich, Iggy Roca, Grzegorz Dogil*
